

SAP is pleased to once again be a Platinum Sponsor for the CAMA conference - including sponsorship of the CAMA President's Dinner - being held in Toronto this year.

SAP is the world's leading provider of business software. SAP delivers solutions to help Canadian municipalities of all sizes improve productivity and constituent relationships, streamline budget processes, and create efficiencies across all lines of operations.

One of the solutions SAP is showcasing at CAMA 2010 is the SAP Business All-in-One for Public Sector offering announced on April 1, 2010 - tailored specifically for Canadian municipalities.

To address the unique needs of Canadian municipalities looking to deploy functionality-rich Enterprise Resource Planning (ERP) solutions, the SAP Canada Public Sector team collaborated with forward-thinking Canadian municipality customers and trusted SAP partners to identify best business practices in key functional areas.

The result is an SAP, Business All-in-One for Public Sector solution, that is localized and preconfigured for Canadian municipalities. The solution provides implementation methodology, business process documentation, and preconfigured templates based on best business practices for the public sector in the areas of financials, procurement, asset accounting, human resources and payroll

Building on this foundation, SAP also provides world class reporting and analytics solutions with its BusinessObjects portfolio - enabling business users to quickly and easily access the information they need without IT involvement.

Additional information on the SAP Business All-in-One for Public Sector press release can be found [here](#).

SAP is also pleased to be presenting the following breakout session at CAMA 2010:

Session Title: Budgeting for Your Future
SAP Presenter: Arthur Gitajn - Chief Financial Officer, SAP Canada
When: Tuesday, June 1st at 3:00pm to 4:00pm

Please join us for this presentation or drop by SAP's booth (#8) at the CAMA 2010 tradeshow to speak with a representative and learn more about SAP's business solutions for Canadian municipalities.

For additional information on how SAP can help your municipality become a best run business, please contact Rob Corazzola at rob.corazzola@sap.com or visit www.sap.com/canada/municipal.
