EXECUTIVE SUMMARY

CAMA STRATEGIC PLAN 2016-2021

VISION

“The Canadian Association of Municipal Administrators (CAMA) is recognized as the premiere national Canadian organization representing municipal administrators”.

MISSION

“To champion excellence in municipal administration and develop resilient leadership through professional development, networking, partnerships and advocacy.”

OUR PURPOSE

Professional Development	Networking & Partnerships	Member Engagement & Support	Resilient Leadership
Provide members with leading edge trends, tools and best practices for local government management through state-of-the-art sharing and professional development opportunities.	Create strong, strategic relationships. CAMA is well recognized as the national “Go To” experts in Municipal Administration	Deliver networking opportunities to engage and connect members. Increase the membership by attracting, maintaining and engaging members from large, small, and remote municipalities with an emphasis on balance and diversity.	Intentional about ensuring success of the profession. Foster a professional, respectful relationship between municipal administrators and Councils.

EMERGING TRENDS

The following trends will provoke a period of innovation and transformation that will make local government an even more exciting environment in which to work, and more responsive than ever to the needs of its citizens. Over the next five years, municipal senior management and elected officials should therefore expect to operate in a context of radical, ongoing, and accelerating change, which will require strong leadership. On the other hand, it is a unique opportunity to attract and retain talented people, committed to the mission of local government and ready to embrace a change.

CAMA reviewed the [“CAO Report: A candid look at the issues on the minds of Canada’s CAOs”](#) report prepared by StrategyCorp in June 2018 that a number of our members participated in. It was felt that these overarching trends were relevant to our Association:

THE GROWING FISCAL CRUNCH

While the responsibilities of municipalities may vary from one Provincial or Territorial jurisdiction to another, concerns about the municipal fiscal situation remain top of mind for CAOs. The revenue sources available to local governments are still narrowly based and often inadequate to meet the challenges of persistent service demands and maintaining, expanding and modernizing new and existing infrastructure. The mis-match between financial resources and service-delivery obligations can only accelerate as the new economy erodes traditional revenue sources, like business taxation and licensing fees.

THE “WAR FOR TALENT”

CAOs have differing views on the nature of their position, from corporate manager to community leader. But all recognize that the CAO’s job is not becoming any easier. Recruiting talent to municipal management requires thoughtful selection. But it also increasingly requires effective cultivation and marketing of the importance and value of municipal professional management, both in CAOs and in department heads.

MUNICIPAL RESTRUCTURING – THE ISSUE THAT WON’T GO AWAY

In past surveys, mention was made of the structural limitations of municipal government. This included a perceived need for a governance “footprint” that more appropriately aligns to the planning, economic and social issues that an increasingly regional and urban Canada must govern. But few seem willing, at the political level, to risk the predictable negative reaction that comes from proposals to alter municipal structure through annexation, amalgamation or regionalization of service delivery. Restructuring initiatives tend to come in waves, usually when pent-up need for fiscal sustainability, appropriate scope for infrastructure and community planning, and economic development pressures combine to force reform discussions. Are we approaching another such “inflection point”?

DISRUPTION

Whether it is new technologies, digital service delivery, fundamental changes to the traditional economic model for retail or tourism, or the unique demands of Millennials and new immigrants, CAOs find that they cannot rely on past practice to guide their approach to new problems and in the search for solutions. The new economy, the impact of extreme weather events and changes in the existing fiscal environment mean municipalities are rethinking their approach to fiscal planning, economic development and taking practical measures to explain and to manage the impact of climate change. The impact of the “grey tsunami” of Baby Boomers will affect everything from recruiting and retaining talent, to managing the very different service demands and planning preferences of the changing demographics of Canadian regions.

INNOVATION

Innovation is taking the private sector economy by storm, and municipal professionals are joining that wave. From digital service delivery and electronic consultation, to advances in performance management techniques and processes and the use of technology to guide infrastructure asset management, traditional approaches to municipal issues are being displaced by creative and innovative new experiments and techniques.

RECONCILIATION

After the country-wide efforts to respond to the Truth and Reconciliation Commission's recommendations, relations between municipal governments and Indigenous groups continue to evolve. From economic development and community collaboration, to symbolic recognition and sensitivity to traditional learning and decision-making processes, CAOs are engaged in a range of ground-breaking initiatives, both with First Nations and Inuit governments, as well as urban Aboriginal and Metis communities. We were particularly impressed by how municipal CAOs have embraced the importance of Reconciliation and are working to move the agenda forward in their communities.

POPULISM

Whether radically new ways to consult with residents, or the newly elected councillor or a mayor from the mold of Donald Trump, or social-media driven simple solutions to complex problems, or the loss of credibility of traditional stakeholder leadership, CAOs are finding that the cycle-time for finding solutions is shrinking, along with the traditional deference to professional expertise. CAOs recognize the need for a renewed emphasis on municipal good governance (from Council-staff relations through to municipal restructuring) and reminding the community of the importance of municipal professionalism.

REPORT CARD – JANUARY 2019
CAMA STRATEGIC PLAN
2016-2021

Dear CAMA Colleagues,

We are pleased to share with you the Canadian Association of Municipal Administrator’s Strategic Plan which was developed in 2016 and looks ahead to 2021. As we enter 2019, CAMA will be in the fourth year of our Strategic Plan. This plan was developed through member surveys and Board focus groups and we have sought to gather information about the issues that are important to you, and the trends that we see affecting the future of the municipal administrator profession, municipal government and the Association. We tried to respond to the important issues and trends that are shaping our environment.

This Strategic Plan has led us to some very important initiatives:

YEAR	ACTIVITY COMPLETED
April 2016-March 2017	<ul style="list-style-type: none"> • A Scholarship Program that has been made available to smaller and remote communities and the next generation of leaders to attend the Annual Conference. • A successful three-year membership campaign with a net retention of 117 members with the continuation of a sustainability strategy to retain existing members and continue to attract new ones. • Participation in an International Panel and a Discussion Paper on local government issues with our affiliates (United Kingdom, Australia and New Zealand). • The launch of the “Cultivating Leadership: A Guide For the Next Generation in Local Government” which was designed in recognition of the importance of providing useful career advice to the next generation of local government leaders, and to provide an opportunity for our more experienced CAMA members to give back to the profession. It is our hope that it will help CAMA members at different stages of their career, students considering a career in local government, and potential future CAMA members. This is also a great resource to share with direct reports and managers throughout your organization. • The launch of a new website. • Significant changes were made to the Federal Funding Programs for Municipal Infrastructure as a result of a series of administrative recommendations made by CAMA through a Position Paper presented to the federal government.
April 2017-March 2018	<ul style="list-style-type: none"> • The addition of a Northern representative to the Board for Yukon, Northwest Territories, and Nunavut. • A partnership with six Provincial Associations which resulted in the launch of the Making Life Happen Campaign and website to recruit the next generation of municipal leaders. • Workshops with FCM and CNAM on Infrastructure, Asset Management, and Climate Change at the 2017 and 2018 CAMA Conferences. • The development and launch of the CAO Performance Evaluation Toolkit with a marketing campaign to CAOs and elected officials. • Outreach to the Provinces and Territories where municipal elections were held to advise of CAMA’s support should you become a Member in Transition. • The development of a new Statement of Purpose for the Association.

There are two years remaining in our Strategic Plan (April 2019 to March 2020 and April 2020 to March 2021) and we plan to focus on the following:

- Increase the outreach to elected officials so that they will see the value when their senior managers would like to join CAMA and/or attend the Conference.
- The Annual Conference will continue to be the priority for professional development.
 - New innovative tools/white papers will be provided on topics of interest to members.
 - Continue to promote the CAO Performance Evaluation Toolkit to CAOs and elected officials across the country.

In September 2020, the CAMA Board of Directors will begin the planning process for our new Strategic Plan for 2021 and beyond. Our planning journey is an inclusive process dependent on the voice of the member. CAMA will provide a number of opportunities for you to provide input into your professional needs.
