

Census made easy, at last

✓ **Online CENSUS** – convenient, cost-effective and can be customized to suit your needs and your budget.

TURN YOUR DATA INTO DOLLARS

Current, accurate population data ensures that your community receives maximum funds through population-based granting opportunities from Federal and Provincial governments. This award-winning tool has been specifically designed for municipal use. Our dedicated team will work with your municipal staff to create a package that suits your needs including custom reports, technical support, data storage in a secure Canadian facility and device rentals which include full cellular coverage at a price that fits your budget.

HOW DOES IT WORK?

- residents receive a secure access code
- residents answer census questions online using the secure access code
- average survey takes less than two minutes
- census generates current, accurate population data
- real-time reporting and audit features ensure data accuracy and integrity
- eliminates paper forms
- online access reduces the number of door-to-door visits required
- wireless devices used for door-to-door data collection
- can be coupled with existing surveys or feedback tools
- integrates with GIS for accurate community mapping

FIND OUT WHAT YOUR COMMUNITY REALLY WANTS!

Take community engagement to the next level. Use Online Census for all your address based community engagement and information gathering exercises.
