

Smart Cities Use HotSpot.

Your one-stop, no-contact
parking solution.

- Touch-free solutions for safer, easier payments
- No app needed with our Fast Tap signs
- Mobile top-ups, refunds increase compliance
- More ways to pay means more revenue
- Less paper and coin collection

Hi, We're HotSpot.

Since 2013, we've been on a mission to transform parking. It started with our pay-by-phone parking app. It's grown into an integrated solution for parking, transit and enforcement. More than 50 clients in North America, including municipalities, airports, hospitals and universities, count on HotSpot to make parking more positive, progressive and profitable.

Our Solutions

One provider, all your parking problems solved. From enforcement and transit to a variety of touchless options, we've got you covered. Enjoy less administration, higher compliance and revenues, improved service and better data insights. And all with 24/7 support.

- **HotSpot App.** Our original solution for no-contact parking, at no cost to you.
- **Enforcement.** The complete solution, from license plate technology to management.
- **Fast Tap.** NFC signs are an immediate, low-cost option for no-contact payments.
- **Transit.** Touch-free tickets and passes, and tap-and-ride technology.
- **Tap Gates.** The world's first tap-to-pay technology for gated lots and garages.
- **Digital Permits.** Eliminate hang-tags, stickers and physical identifiers. It's all in the app.
- **Administration.** Our cloud-based dashboard centralizes your data and reporting.

Testimonials

Marc Dionne

General Manager, Saint John Transit & Parking Commission

"The more people using HotSpot, the better the customer experience when it comes to parking."

Melissa Martin

Parking Supervisor, Trent University

"HotSpot has been great to work with because they're always willing to come up with ideas that work for our users. Students and staff love it."

Lynn Todd

Parking Operations Coordinator, City of Peterborough

"They put their money where their mouth is by giving us a good product and great support. They've given us so much confidence in their product."
