### COMPANY PROFILE

We are a specialized video communications and media production solutions company that has built a reputation on achieving the highest degree of customer satisfaction in all of our projects. These projects involve consultation, design, integration, and installation of audiovisual and media production solutions in any environment.

### OUR REACH

With 13 offices across the country, our experienced team is recognized as one of Canada's top audiovisual and broadcast systems integrators. We are headquartered in **Calgary** with additional offices in **Vancouver, Victoria, Comox, Kelowna, Edmonton, Saskatoon, Regina, Winnipeg, Windsor, London, Toronto, and Ottawa**. This allows us to offer "**Techs Without Borders**" an innovative offering that sends our most knowledgeable technical specialists to the most challenging applications. Whether the client is located in a major Canadian city or a small rural area we are able to give every client access to the company's entire team.

### WE PROVIDE

#### Installation

Our installation team has worked on everything from small boardrooms to large video wall; and everything in between. You can count on us to have equipment installed properly each and every time

#### Support and Training

In-House demonstrations give you the advantage of a specialist's expertise from the beginning of your Matrix experience. Our experts bring the technology to life to ensure you make the right choice for your application.

#### System Design

We cover all aspects of audio visual installation and have full in-design capabilities, including the ability to produce drawings. Our design expertise includes: boardrooms, video conference rooms, retail environments, sports venues, and more. Matrix installations are done to the highest standards.
