

**MANITOBA & SASKATCHEWAN  
CAMA BOARD REPRESENTATIVE  
2020-2021 NOMINEE**

**Eric King  
Chief Administrative Officer  
Town of Niverville, MB**

Eric King has been the Chief Administrative Officer for the Town of Niverville since 2018. Eric brings over a decade of experience working in both the private and public sector. Past experience includes working for a multi-national engineering firm AECOM (in various operational and accounting roles) and for the Town of Niverville (first as the Finance & Administration Manager, eventually Business Manager and now as CAO).

Eric holds an Economics degree from the University of Winnipeg and a CPA CGA designation in Manitoba. He also has completed the Manitoba Municipal Administration program at the University of Manitoba, the Executive Certificate in Local Government from Dalhousie University and both the Municipal Executive Certificate Program and Certificate in Municipal Management & Leadership Program from the University of Alberta.

Eric's areas of focus are in Economic Development and Finance & Team Building. Eric believes that strong leaders come from strong teams. He strives to find "outside-the-box" solutions to both local and regional problems and believes that municipalities working together are collectively stronger.

Eric is married with two young daughters and outside of work enjoys his time with his family and finding time to play hockey, golf and slo-pitch.

Reason Why?

I am interested in serving and learning from those from across the country. Having spent most of my career responsible for projects in Manitoba & Saskatchewan I believe I am aware of the challenges that both small and large municipalities face in our two provinces.

My experience in the private consulting world will uniquely benefit the board as municipalities deal with increasing challenges related to maximize our taxpayers' dollar to tackle increasingly complex issues and projects.

As a newer member to the public sector, I would like to see the development of a mentorship network to help develop and foster new municipal leaders from a younger age. Too many of our young people do not see or know of the opportunities that exist to them to work within municipal government as a career.
