FREE but registration is required
(see link below)

So, you're faced with addressing the needs of your community to provide high speed Internet connectivity, but you aren't quite sure how to kick it off. Calix has the experience and know-how to help you get started. During this session, we will review the business models and deployment options, and provide examples of Canadian success stories from other municipalities. Learn from our experience of helping over 200 Greenfield organizations launch successful broadband Internet networks.

Contact **Melissa Waltz, Senior Event Planner** at

melissa.waltz@calix.com if you have any questions about this opportunity.

About the speaker

Jason Presement
Regional Vice
President, Sales
Canada
Calix

Jason has held various roles over the past 25 years in Systems Engineering, Business Development, Sales, Marketing and Product Development with industry leaders including Bay Networks, Nortel Networks, and Juniper Networks.

Jason is also driving Calix's efforts in Canada to bridge the digital divide - working to educate underserved Rural and Remote communities and connecting them with an ecosystem of Calix partners to help them benefit from the tremendous economic development, community and social engagement opportunities that result from high-speed Broadband connectivity.

About Calix

Calix cloud and software platforms enable service providers of all types and sizes to innovate and transform. Our customers utilize the real-time data and insights from Calix platforms to simplify their businesses and deliver experiences that excite their subscribers. The resulting growth in subscriber acquisition, loyalty and revenue creates more value for their businesses and communities. This is the Calix mission; to enable communications service providers of all sizes to simplify, excite and grow.
