

Broadband Consulting for Communities, Cities, Counties, Towns and Public Utilities

Magellan assists communities and public utilities to plan and implement gigabit broadband networks to support economic and community needs.

We provide turnkey broadband planning, implementation and management services that have enabled hundreds of communities to deliver innovative fibre-based broadband to their citizens and businesses. We have a deep background and understand the challenges communities face in the changing world of transmission and distribution.

Magellan provides the full spectrum of broadband consulting services from planning, to implementation to ongoing management.

- ✓ FEASIBILITY STUDIES & BUSINESS PLANS
- ✓ BUSINESS MODELS & PARTNERSHIPS
- ✓ IMPLEMENTATION & PROJECT MGMT
- ✓ FIBRE DESIGN & ENGINEERING
- ✓ FINANCIAL PLANNING & FUNDING
- ✓ OPERATIONS

PROVEN PROCESS. PROVEN RESULTS.

Find out how Magellan has helped communities deliver the fastest broadband services in North America and how we can help you bring next-generation broadband to your community.
