SIMPLIFIED COMMUNICATION

Inform your citizens of current news and events in your municipality, allow them to make requests and complaints online, get them involved in major decisions and send them communications in real time!

OPTIMIZED MANAGEMENT

Manage your Citizen Portal and its content independently in a user-friendly dashboard. Your team can easily track your citizens' requests and issue personalized alerts and notifications at any time and place.

IMPROVED ANALYSIS

You're in control of your data! With the help of advanced statistical tools, analyse the data collected and benefit from the freedom to export it.
